Appendix D  Focused Plant Survey Areas
See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

* These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.
FOCUSED PLANT SURVEY AREAS

See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

* These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.
These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.

* See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.
FOCUSED PLANT SURVEY AREAS

See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

*These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.
FOCUSED PLANT SURVEY AREAS

See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

* These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.
See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

*These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.*
FOCUSED PLANT SURVEY AREAS
See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.

* Areas to be Surveyed in 2008

FOCUSED PLANT SURVEY AREAS

See NES Section 2.2.4 for plant survey methodology and Section 4.2.1.1 for a discussion of plant survey results.

These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.

* Areas to be Surveyed in 2008

Other Potentially Suitable Habitat Within the Area of Habitat Assessment*

Surveyed 2005
Surveyed 2006

Biological Study Area
NEPSSA Boundary
Composite Project Footprint
CASSA Boundary
Surveyed 2005
Areas to be Surveyed in 2008
Other Potentially Suitable Habitat Within the Area of Habitat Assessment*

These areas will not be surveyed. Instead, the target species will be inferred to be present. None of these areas will be directly impacted by the project.

* See NES Section 2.2.4 for plant survey methodology and Section 6.2.1.1 for a discussion of plant survey results.
